

ENGIN WINS AIIA iAWARDS CATEGORY

engin crowned Communications Applications category winner at Australian ICT industry's premier awards

Sydney, 26th May 2005: *engin*, the Australian broadband phone company, was voted Communications Applications category winner for its broadband phones at last night's iAwards ceremony - the Australian ICT industry's premier awards.

The iAwards is presented by Australian Information Industry Association (AIIA), the Australian Financial Review and the CSIRO ICT Centre and follows a rigorous judging process on each innovation by 20 high-profile members of the Australian media, academia, government and the ICT industry.

Ilkka Tales, Chief Executive Officer, *engin* said, "*engin* has always been committed to giving Aussies the opportunity to make massive savings on their phone bills using broadband telephony. We have made significant ground over the past year and we are delighted that our technology, service and continuing momentum have been recognised with this fantastic award from the AIIA".

Commenting on *engin's* win, AIIA's Chief Executive Officer, Rob Durie said, "We have been delighted with the calibre of this year's competition. On behalf of AIIA, I would like to congratulate all the winners. The iAwards can be a springboard to large-scale success, leading to increased company profile, greater customer confidence, and opening doors to valuable partnerships and external investment opportunities."

engin Voice Box - the first Australian broadband telephony service to hit major retailers - allows people to make calls to, and receive calls from, any landline or mobile phone over their broadband Internet connection using Voice over Internet Protocol (VoIP) technology. In doing so, people can make massive savings of up to 40 per cent [1] on their phone bills. *engin* also recently launched its updated *engin*

Voice Box Series 2 with new features enabling consumers to slash mobile phone bills as well as traditional fixed line calls.

About engin

engin (ENG) is the first broadband telephony service to be broadly available to Australian consumers and businesses on the shelves of major retailers. engin is headquartered in Sydney, Australia and was granted its telecommunications carrier license in March 2004 to deliver a digital voice service across existing broadband connections. engin, winner of the 2005 iAwards AIIA communications category, offers six products in the *engin* suite: *engin Voice Box series 1 & 2*, *engin X-Pro*, *engin X-Lite*, *engin 1way* and *engin switchboard* all of which provide affordable telecommunication alternatives to Australian consumers and businesses.
