

ENGIN AND PEOPLE TELECOM TEAM UP TO PROVIDE VOIP SERVICES

engin to supply VoIP network to People Telecom customer base

Sydney, 30 November 2005: engin, Australia's broadband phone company, today announced it has entered into a strategic wholesale agreement with People Telecom, one of Australia's leading telecommunications service providers.

Under the agreement, engin will provide People Telecom with access to its Voice over Internet Protocol (VoIP) network. People Telecom will move all its existing customers to engin's VoIP network and will make the engin VoIP service available to its ADSL customers from 1st January 2006.

People Telecom customers will be given an engin VoIP phone number and will be able to make calls to, and receive calls from, any landline or mobile phone over their existing ADSL connection at rates far lower than traditional fixed line carriers.

"We are extremely pleased to establish this strategic partnership with People Telecom who is one of the fastest growing technology companies in Australia. By working together, we will add significant impetus to the growing Australian VoIP market and, above all, we will be able offer People's customers the ability to make massive savings on their traditional fixed line phone bills", said Ilkka Tales, CEO, engin.

Commenting on the agreement, Ryan O'Hare, Managing Director, People Telecom, said, *"Leveraging engin's expertise in providing VoIP services to Australians nationwide, we are confident that this partnership will increase the availability of high-quality and inexpensive VoIP phone calls for our customers. We are committed to delivering the best personalised service in the telecommunications industry and working with engin will help us to set ourselves apart from our competition."*

About engin:

engin, Australia's leading broadband phone company, was granted its telecommunications carrier license in March 2004 to deliver a digital voice service across all existing Australian broadband connections, and was the first broadband telephony service to be broadly available to Australian consumers and businesses on the shelves of major retailers. Headquartered in Sydney, Australia, engin provides affordable telecommunication alternatives for all Australian consumers and businesses, and were recent winners of the 2005 iAwards AIAA communications category. engin is a publicly listed company on the Australian Stock Exchange (ENG).
